SUMMARY

Responsible, Motivated final year engineering undergraduate with hands-on experience in web applications and a completed internship, gaining practical expertise in software engineering. Seeking to apply and enhance technical and problem-solving skills in a dynamic organization.

WORK EXPERIENCE

Software Engineer Trainee — **June 2024 - Dec 2024**
Irusri Group, Sweden

- Frontend Developer - contributed to five real-time projects and one individual project with experience in modern frontend technologies, including React and TypeScript.
- Project Coordinator - Managed projects, handled clients, and coordinated developers by developing strong teamwork and communication skills.
- QA - contributed to two projects by identifying, reporting, and tracking bugs.

EDUCATION

B.Sc.Eng.(Hons) in Computer Engineering — **2020 - Present**
Faculty of Engineering, University of Ruhuna

G.C.E. Advanced Level Examination (Physical Science) — **2011-2019**
H/ Vijayaba National School, Sri Lanka

PROJECTS

Agentic AI-Powered Workflow Automation System — **Feb 2025 - Present**
Final Year Project - Group

- Developing a multi-agent system to automate faculty workflows, including Guidance, Hall Booking, and Planner agents.
- Developed the Guidance Agent capable of answering queries related to faculty workflows.
- Gained experience in cutting-edge AI technologies, including LLMs, RAG, and LangGraph.
- Implemented the system's UI features using React and TypeScript, enhancing user experience.

Restaurant Table Reservation System — **July 2024 - Dec 2024**
Individual Project

- Developed restaurant table reservation system with client and admin portals.
- The frontend was developed using React and TS for providing responsive and user-friendly interfaces, while the backend was designed to ensure scalability and modularity.
- Features included table reservations, menu and table management, and admin controls.

Crop Marketplace and Delivery System — **Aug 2023 - June 2024**
Group Project

- As a full-stack developer, I contributed to the project focused on creating a platform that enables seamless connectivity among farmers, sellers, and delivery personnel.
- Gained hands-on experience in MERN Stack, JavaScript, and CSS,

TECHNICAL SKILLS

- Front-end Development (React, TypeScript)
- Back-end Development (Nodejs)
- UI/UX Designing (Figma)
- AI Technologies (LLM, Langgrapgh)
- Databases Management (MongoDB)
- Git / GitHub Version Control
- Programming languages (Python, JS, C++, Java)
- Deep learning framework (TensorFlow)
- Machine Learning
- Natural Language Processing
- Computer Vision

LICENCE & CETIFICATES

- Cert Prep: Certified Entry-Level Python Programmer - LinkedIn Learning
- Machine Learning with Python - IBM
- Developing Front-End Apps with React - IBM
- Machine Learning - Simplilearn
- Introduction to Graphic Design; Basics of UI/UX - Simplilearn
- Essential Skills for Your Career Development - University of Leeds
- Improving Communication Skills - University of Pennsylvania

---

VOLENTERRING

- Volunteer Teacher in Mehewara Program (2021/2022/2023) - University of Ruhuna
